Mrs. Still did a wonderful job in helping me develop a positive classroom environment. She taught me how an Elementary School teacher should develop a classroom, especially a classroom library.

She showed confidence in me the whole time. Open to my thoughts and ideas.

Dr. Kyzer is a great mentor teacher and helped me with anything I needed. She was always asking what she could do to make the internship better. She was always positive and always told me things that I could change to make the lessons better. I strongly suggest that this program keeps using her as a mentor teacher. It will not only be beneficial for the intern but also for the program. She is all about the students needs and that is why we teach for the students. Some may say that she is too traditional but she has helped me learn so much through this semester. She has taught me a lot about classroom management that I did not know about. I will be carrying a lot from what she has taught and applying it to my own classroom. Just throwing this out there; the last intern she had is now a teacher at Newberry High and is a very successful teacher in this school. So please use Dr. Kyzer again for the sake of future interns.
