

PLO#5 How did we perform? overall? By Program?

NOTE: For consistency -
can we say
Classroom Mgmt
OR
Classroom Environment

Classroom Mgmt Plans $\begin{cases} \text{sec} \\ \text{elem} \end{cases} \rightarrow$

Final Internship preparedness scores indicate inconsistency in across all majors (from year to year)

Eng majors appear to be less prepared than other majors

Graduates survey indicate satisfaction with training

(According to Principals)

Most graduates were successful at Cl. Management in their 1st year

There is a difference btwn planning and practice. Do the methods courses need more practical experience prior to Internship in order for candidates to feel more prepared?

90% at Excellent but other results show Proficient in practice. Need more reality-based.

How can/do we differentiate between mgmt + enviro? (pedagogically/data)
Can we label source of data like we do in classroom teacher eval chart?

-Can we draw on Narratives from Internship for insights in Specific areas?
